Assignment: This assignment was to show our thinking about time complexity line by line. I wrote it on a piece of paper. The following organization goes as follows.

The question number should be highlighted. There are three boxes in each question.

1.Left box:: Displays the for loop and problem in hand.
2.Right box:: The actual answer and time complexity for the equation.
3.Bottom Box:: The work I did for the problem.

Each line is numbered. The answer should be the right box.
